## UNITED IRELAND.

Parnell Seizes His Own Newspaper in Dublin.

### A ROW IN THE EDITOR'S OFFICE

Desperate Struggle Between the Sheriff's Officers and the Old Editorial Staff—The Paper Will Hereafter Appear as a Parnell Organ—The Irish Parliamentary Trouble Transferred From London to Ireland—Various Other Foreign News.

DUBLIN, Dec. 11.—The newspaper United Ireland has got into trouble through its persistent advocacy of the retirement of Mr. Parnell. Mr. Parnell is one of the directors of the company owning the paper, and acting in that capacity he yesterday seized the plant of the paper, stopped the issue of the current edition and ejected the acting editor, Mr. Bodkin. Barrister Kelley, Mr. Henry Campbell, Mr. Parnell's private secretary, and Mr. Mahoney, member of parliament, were present when the seizure was made. Mr. Parnell's agent has taken possession of the offices of the paper.

CHARLES STEWART PARNELL

When Mr. Bodkin entered the office he found Mr. Parnell in possession. Mr. Parnell, in the presence of the other directors, read the articles of association under which the company was organized, and then ordered the sheriff to eject Mr. Bodkin. The latter made an ineffectual resistance. A desperate row occurred in the down stairs office between the sheriff's officers and the sub-editors. Sticks and stools were used as weapons and the air was filled with flying missiles. Finally after a sharp and fierce struggle the sub-editors were put out of the building.

The news of the seizure of the paper created great excitement in Dublin and a mob surrounded the office. Mr. Parnell later addressed the staff, the members of which promised to serve him during the remainder of the crisis. Mr. Parnell placed Mr. Leamy in charge of the paper. It has been ascertained that one of the editors got a hint of Mr. Parnell's intention to seize the paper and made arrangements to have yesterday's edition printed at an earlier hour than usual. The edition was on the point of being issued when Mr. Parnell appeared. He ordered that the entire edition, which contained bitter attacks upon himself, be destroyed. In the struggle that took place in the office one of Mr. Bodkin's supporters was hit on the head with an office stool, receiving a scalp wound. Three of the sheriff's men received slight contusions.

United Ireland will reappear, but its policy will be changed and henceforth it will be issued a Parnellite organ. Mr. Parnell is the owner of 4/4 of the 500 shares of the stock of the United Ireland company. The remaining twenty-six shares are owned by Dr. Kenny, member of the house of commons for south Cork, and a friend of Mr. Parnell's, and Mr. Justin McCarthy, leader of the anti-Parnellites.

The gentlemen of the staff who were violently ejected from the office will at once institute proceedings against Mr. Parnell for assault.

The war is now transferred from parliament to Ireland, and the leaders of both parties are in haste to have a word with their constituents. Parnell is as inflexible as ever, and his supporters say that not a step will be taken by him toward any compromise or arrangement.

The manifesto of the seceding majority of the Irish members declares that they are bound to protect the cause of their country at whatever personal sacrifice. It asserts that Mr. Parnell has disregarded their appeals to remember the country, and has evinced an ill-judged determination to maintain a position which will not be sustained by the people. It is the duty of all Irishmen, irrespective of their kindly personal feeling toward Mr. Parnell, to adopt a course that will save the country from the dangers which threaten it as a result of Mr. Parnell's misconduct.

The document further says that Mr. Parnell's utterances would indicate that he is the injured party; whereas he alone is responsible for the present deplorable condition of affairs. It details Mr. Parnell's failure to keep his promise to repel the charges of Capt. O'Shea, and makes many severe references to his conduct since the charges were brought against him. Parnell's personality, it avers, obstructs Ireland's freedom. If he is re-elected, the Tory government will resume its power, and coercion will receive a new lease of life.

The manifesto is replete with declarations of the fullest confidence in Mr. Gladstone's desire and ability to grant substantial self-government to Ireland. It declares that Mr. Parnell's manifesto was an appeal to hatred between the peoples of Great Britain and Ireland. The document is signed by forty-

seven members, headed by Justin McCarthy. It concludes: "The issue we submit to the people is one upon which the fortunes of our country must depend. May God defend the right."

### Religious Revolution.

LONDON, Dec. 11.—A religious revolution on a small scale is reported from the little Prussian town of Pitsau, near Konigsburg. A very popular Lutheran pastor having in his power to spiritualize concluded that he could no longer conscientiously teach his flock the tenets of that faith, as he had become a convert to Catholicism, fully delivered to him a message of his well from his pulpit. So great was the devotion of the parishioners to their beloved pastor, however, that more than fifty families of the congregation announced their determination not to be separated from him, and declared their willingness to follow him into the fold of his future labors. The movement has caused an immense sensation in the vicinity, and has been widely and variously commented upon throughout the country.

### Behalf of the Persecuted Jews.

LONDON, Dec. 11.—At the mansion house yesterday a meeting of influential gentlemen was convened to consider the condition of the Russian Jews. The lord mayor was in the chair, and a resolution was offered by the Duke of Westminster deplored the unfortunate position in which the Jews of Russia were placed. In introducing the resolution the duke said he believed with Cardinal Manning that the czar was ignorant of the unhappy circumstances by which the Jews were surrounded in his dominions. The motion of the duke was seconded by Lord Ripon and was then adopted by the meeting. A committee was appointed whose duty it will be to inform the czar of the proceedings had.

### War Lament.

PARIS, Dec. 11.—According to The Sickle, King Menelik, of Abyssinia, having discovered that he had been duped by the Italians in the drafting of the recent treaty between Italy and Abyssinia, has suspended the trade relations between Italy and his dominions. In consequence war between the countries is believed to be imminent.

### Steamship Stranded.

LONDON, Dec. 11.—The Peninsular and Oriental Steamship company's mail steamer Nepal, stranded at the Plymouth breakwater in a fog last night. Some of the passengers were landed by a tug and proceeded to London. Government and private tugs are endeavoring to get the vessel afloat.

### FEDERATION OF LABOR.

Third Day's Proceedings of the Detroit Convention.

DETROIT, Dec. 11.—There was but a short session of the Federation of Labor convention yesterday morning. An invitation from the mayor of Birmingham, Ala., to hold the next convention of the Federation at Birmingham was received and will probably be accepted. The Pacific coast seamen's union asks the Federation to protest against the act to compel signing of crews before commissioners. Resolutions to "let alone" the Cleveland Picture Frame company, and for printers and decorators to strike for eight hours May next were referred.

At the afternoon session the report of the committee on credentials was taken up and each resolution freely discussed. The first one being for the establishment of an organ of the Federation with headquarters in Chicago, was defeated by a large majority.

The committee reported adversely

Brownschweig's resolution that no address be tolerated from politicians or other representatives of the capitalistic class. The committee submitted a report condemning the hiring of Pinkerton men in time of strikes and the unjust use of the police. The resolution was so indefinite that it was re-committed with instructions to bring in a resolution more definite in its character and stronger in its denunciation of the use of Pinkerton men.

The warmest discussion of the session came on the report of the committee to print the reports in both English and German. It was finally voted to print in German only when the demand was great enough to justify the expense.

The report of the committee recommended that the executive board be ordered to petition President Harrison for the pardon of E. W. Clark and George Miller, who were sentenced to life imprisonment in 1875 for mutiny on the high seas in killing Jeff Barton, the mate of the vessel on which they were sailors. The report states that these two men were driven to desperation by the cruelty of Barton.

The report was unanimously adopted, and the convention adjourned for the day.

### Largest Foreign Mail Ever Sent.

NEW YORK, Dec. 11.—There were dispatched from the New York post office yesterday to foreign destinations 19,517 registered letters and packages of which 13,402 were sent to Great Britain and Ireland by the steamships Teutonic and City of New York. The approach of the holiday season is always accompanied by a large increase in the registered matter dispatched and received, but the above figures represent the greatest volume of such matter forwarded to foreign destinations for one day from New York.

### The Oldest Place in America.

"Do you know the oldest place in all America?" said Gen. John B. Henderson, of St. Louis, to a circle of friends. "I don't mean the oldest town in the country or on the continent, but the land first found on the western hemisphere. No? Well, I thought not. It is Mount Marcy, in the Adirondack mountains. Agassiz and other geologists have figured out that Mount Marcy was the point of land that made its appearance first above the water when the western hemisphere was evolved."

## LOSS OF LIFE AT SEA

The British Steamship Westbourne Goes Down.

### TWENTY-ONE PEOPLE PERISH.

Many of the Victims Frozen to Death in a Life-Like Posture While Discharging Their Duty—The Four Survivors but Miserable Wrecks of Humanity.

PHILADELPHIA, Dec. 11.—There has reached this city through a private channel the thrilling story of the loss of the British steamship Westbourne in the Black sea. Of the vessel's crew of twenty-five, four are all that survive the ill-starred voyage, and these are miserable wrecks of humanity, lying prostrated by suffering in an Odessa hospital under the care of the British consul.

The Westbourne, an ordinary tramp steamship, left Theodosia, southeast of Crimea, Nov. 24, laden with linseed, bound to Lunsirk and thence to Philadelphia, with a general cargo. On the evening of her departure, a gale peculiar to the Black sea alone rose. The weather grew so intensely cold that the men were frozen to death in a lifelike posture at the wheel or wherever their duty called them. Every sea that swept over the vessel froze to her, making her sluggish and so heavy that she refused to ride the waves and became unmanageable. When the water gained entrance to the hold the cargo began to swell, and burst open the deals fore and aft as though powder had exploded in her interior.

At about midnight, although only a few hours out of port, the vessel began to go down. Already the corpses of a number of the seamen were visible about the deck, standing up against the handrails just as erect as though in full vigor—they were frozen as hard as iron.

With all the crew that still held fast to their lives Capt. Bennington put out in a small boat and headed her back to Theodosia, a distance then of some fifty miles. During the early morning the men died one by one until on reaching Theodosia the following night the number was reduced to eight. Subsequently four more died while undergoing medical treatment, leaving but four survivors.

Capt. Bennington, the commander of Westbourne, is well known to Philadelphia shipping men. He is completely prostrated by his sufferings in the open boat and by the death of his brother, the ship's chief officer, who perished of the awful cold before his eyes.

### BELIEF IN LAWMAKERS.

Revolvers Drawn and a Lively Fight in the Oklahoma Legislature.

GUTHRIE, I. T., Dec. 11.—One of the liveliest days of what has been an extremely lively session of the Oklahoma legislature, was that of yesterday. While Brown, of Oklahoma, was discussing the burning question of Oklahoma politics, the capital question, a point of order was raised by Brown, of Logan. Brown, of Oklahoma, resented the interruption in language more forcible than choice. Brown, of Logan, immediately pulled his revolver and started for Brown, of Oklahoma, but had not taken two steps before he was disarmed by his friends and forced back into his seat.

Brown, of Oklahoma, in the meantime stood in the middle of the aisle, with drawn revolver, shouting for his antagonist to come on. The speaker of the house called the sergeant-at-arms, and directed him and his assistant to seat Brown. By a clever flank movement they took the angry senator unawares, wrenched the revolver from his grasp, and seizing him by the throat, essayed to force him into his seat. One blow from Brown's fist sent the assistant to the floor, and then a tussle began with the sergeant-at-arms, which was interrupted by the rush of a hundred soldiers who were not going to see their champion worsted.

The opponents of the lobby rushed to the aid of the sergeant-at-arms, and for ten minutes the senate chamber was given over to the howling, struggling mob, in which senators and lobbyists were indiscriminately mixed. The chair finally restored order, but little business was transacted during the remainder of the day, and the council finally adjourned.

### Probably Fatal Fall.

WABASH, Ind., Dec. 11.—Tuesday afternoon Jerry O'Brien, a machinist in the employ of the Diamond Watch company, at this place, fell from a ladder, while at work, to the stone floor below and struck squarely upon the back of his head and neck with terrific force. He was taken up in an unconscious condition and removed to his room. It is not unlikely that paralysis may ensue, and the chances are that the accident will prove fatal.

### FIVE MEN FALL FORTY-FIVE FEET.

BANGOR, Me., Dec. 11.—A staging on the American Ice company's houses gave way yesterday morning, precipitating five men forty-five feet to the ground. Joseph Hammond, of South Brewer, was instantly killed. Thomas Vassar, of Bangor, was fatally injured; Fred. Walker, of North Carmel, had an arm broken and was badly injured; Patrick McNally, of Bangor, was badly cut about the head and face, and Frank Kelly had a knee-cap broken and was badly bruised.

### Burned Buttons.

PROVIDENCE, R. I., Dec. 11.—At 3:30 a. m. yesterday a fire was discovered in the enameling rooms of the J. B. Buckley button manufactory, in the large brick building formerly occupied by the Narragansett Electric Lighting company on Auburn street. Before the flames could be subdued \$35,000 to \$40,000 worth of damage had been caused.

### A MAGNIFICENT BUILDING.

The Future House of the New York World Formally Opened.

NEW YORK, Dec. 11.—The magnificent new Pulitzer building—the future home of the New York World, was formally opened last night with a full-dress reception, which was attended by many senators, congressmen, governors of states and people of prominence from all parts of the country. The decorations and illumination of the building were beautiful, and the attendance amounted to almost a crush.

THE PULITZER BUILDING.

At 8 o'clock the immense edifice presented a beautiful appearance from City Hall square, where several thousand people were gathered to view the spectacle.

The affair was an invitation one and the doors were thrown open to the guests at exactly 9 o'clock. From that time until 11 o'clock there was a constant stream of carriages driving up to the main entrance and a solid line of people going into the big lower hall.

By 10 o'clock the stairways and halls were completely packed with people, and moving about was impossible. It was estimated that fully 5,000 people were in the building at that hour. Among the visitors were Governor Hill, ex-Governor Hadley, of Ohio; Governor Beaver, of Pennsylvania; Governor Green, of New Jersey; Mayor Grant, Congressman Ashbel P. Fitch, Judge Roger A. Pryor, Col. Finlay Anderson, Col. Singery, of Philadelphia; Rear Admirals Gherardi and Braine.

Orchestras were stationed in different parts of the building and on the three upper floors refreshments were served.

Shortly after 11 o'clock as many as could get in gathered in the large reception room on the second floor and there listened to short speeches by Governor Hill, Governor Feaver, Governor Campbell, Col. Cokerill and others.

It was a great and successful opening of one of New York's finest buildings.

### One Accident to Mar the Occasion.

NEW YORK, Dec. 11.—At 7:30 o'clock last night a flash light which was placed on the roof of the city hall to take an immense picture of the new World building exploded with terrible force. A piece of stone coping weighing 300 pounds was broken off and fell to the ground. Many of the window panes in the building were shattered. A heavy plate-glass in the Pulitzer building was also broken. No one was injured, though some of the ladies at the reception fainted.

### Race Riot in Alabama.

BIRMINGHAM, Ala., Dec. 11.—Sheriff Smith, with a posse of fifty well-armed men, has gone to Blue Creek coal mines, twenty miles from this city, to quell a riot which is reported to be in progress there. Particulars of the trouble are not obtainable beyond the fact that a collision between the white strikers and the negroes, who have taken their places, has occurred or is threatened. It is feared that serious trouble and bloodshed will occur.

Sentenced for Defrauding the Government.

COLUMBUS, O., Dec. 11.—Capt. W. H. Little and Caroline Swisher, of Belaire, convicted in the United States court of defrauding the government of \$2,140 pension money, were sentenced to two years each yesterday, the former to serve in the penitentiary and the latter in the jail at St. Clairsville. Capt. Little was a soldier and was one of the prisoners that was confined in Libby prison.

### The Western Union Sued for Damage.

LONDON, Dec. 11.—William F. Morton has begun a peculiar damage suit for \$5,000 against the Western Union Telegraph company, for neglect of the company's agent to deliver a message last October, apprising the plaintiff of the dying condition of his mother in Scioto county. Heavers that he was deprived of the comfort of his mother's dying farewell.

### Took Good Care of the Money.

GREENSBURG, Ind., Dec. 11.—David Camden, an employee of Magee & Barr's livery stable, is missing, and with him Magee's pocketbook and \$32. The money was left in a coat-pocket, and Mr. Magee went to Shelbyville, where he telephoned back to have it cared for. Camden received the message and took charge of the money, and is now gone.

## EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.  
ROSSER & McCARTHY,  
Proprietors.

THURSDAY, DECEMBER 11, 1890

The news from Frankfort is that Lieutenant Governor Jim Bryan is in the contest for Governor, and has given the other candidates to understand that they will have to fight to win. May the best man get there.

GENERAL BOYNTON of the Commercial Gazette staff says the next Congress will be "about three-fourths Democratic and fully one-fourth cranks." This Republican doesn't refer in very complimentary terms to the Republican Congressmen.

The Blade says next year will see the tax levy go to \$3 on the \$100 in Portsmouth. If manufacturers wish to find a place where taxes are low and where they can have all desired advantages in other respects let them come Mayville.

"GRANNY" HOAR, who is supposed to represent the State of Massachusetts in the Senate, says the present stringency in the money market is due to the great victory the Democrats won in November. And Mr. Hoar pretends to be a statesman! Such talk is usually heard from a stump speaker.

A YEAR ago Republicans elected the Mayor of Boston by a majority of over 5,400. At the election in that city this week Democrats elected the Mayor by a majority of over 10,300, and seven of the ten Aldermen chosen are also Democrats. It looks like the Democrats of the Old Bay State have got their fightin' clothes on this year.

THE National House of Representatives passed public building bills yesterday that call for appropriations amounting to the enormous sum of \$3,425,000. Kansas City comes in for a building that is to cost \$1,200,000. It looks like this business of taxing the people of the country to erect costly structures at most every city of any importance is being carried to extremes. Isn't it time to call a halt?

A CORRESPONDENT of a Western journal writing from Washington City, says Amos J. Cummings, the popular New York Congressman and journalist, just before the opening of Congress, after telling of the fun which he expected out of this session, said:

"When will the ghost dance begin?", Whereupon, Mr. Springer, of Illinois, pointing to Speaker Reed, said:

"As soon as Sitting Bull enters his tepee."

THE pension rolls of Great Britain, France, Germany, Austria-Hungary and Belgium, cost annually some \$31,000,000 while that of the United States cost \$133,000,000. European pensions cover both sides of the wars of 80 years, and ours are all, or almost all, for the one side of a four years' rebellion. And on the first day of the present session of Congress, a bill was introduced to increase over one hundred thousand pensions granted under our already liberal laws to \$6 per month.

People have got done asking where this business is to the end, for it is apparent that it cannot stop very far short of that point where the pensions will swallow up all that was saved by the success of the war.—True American.

### Stock and Crops.

The offerings of tobacco on the Cincinnati market to date for the year are 10,000 hogsheads more than for the same period in 1889.

John A. Judy, of Winchester, shipped 465 head of cattle to New York a few days ago for the export trade. The average weight of the lot was about 1,525 pounds, average price paid \$4.12. Two car-loads averaged 1,900.

It took 2738 cars to deliver the live stock received at the Union Stock Yards, Chicago, during November. The number of car loads shipped out was 6,706. For November, 1889, the number of car-loads received was 25,038.

Messrs. Jas. Kirk and B. F. Clift made a big shipment of choice cattle yesterday over the C. & O. to the eastern market for the export trade. There were 143 head and the average weight was 1,692 pounds. In the lot were 32 head of Mr. Kirk's own raising that averaged 1,796 pounds.

The top price for tobacco at Cincinnati the past week was \$26.75. The Morris House sold two hogsheads for Styles Bros., of Sardis, at \$20 and \$21 per hundred, and one for Waller Sharp, of Sharpsburg, at \$23.25 per hundred. The Globe House sold three hogsheads of Mason County at \$20 to \$24.25, and the Miami seven hogsheads of Mason County at \$20 to \$24.

### Here and There.

Mr. Lyle Herndon, of Louisville, is in town, on business.

Judge Wall and wife returned last evening from Cincinnati.

### ONE ELECTION A YEAR

That Shall be the Limit Hereafter,  
Says the Constitutional  
Convention.

The Constitutional convention has been grinding away for several days on the chapter in reference to elections. Section five was adopted yesterday. It reads as follows:

"Not more than one election each year shall be held in this State or in any city, town, district or county thereof. All elections of State, city, town, district or county officers shall be held on the first Tuesday after the first Monday in November, but no officer of any city, or town, or county, or subdivision thereof may be elected in the same year in which members of the House of Representatives of the United States are elected, except to fill vacancies. District or State officers, including members of the General Assembly, may be chosen in the same year in which members of the House of Representatives of the United States are elected. All election by the people shall be between the hours of 6 a. m. and 7 p. m., but the General Assembly may change said hours. The officers of election shall be residents and citizens of the county, district or precinct in which they act. The General Assembly shall enact laws under reasonable regulations requiring employers to give employees not to exceed four hours on election days in which to go to the polls and vote."

Then the committee went back to section four, which had the secret ballot proposition for its principal feature. The indications are that the secret ballot will be given a ten years' trial.

If section five stands as above, it will necessitate a change in the term of office of many city officials throughout the State. Most of these city officials are chosen annually now, but the section above says none of them "may be elected in the same year in which members of Congress of the United States are elected," so that their term of office will have to be doubled, and they will have to be chosen on alternate years to members of Congress.

### VERY APPROPRIATE

The Kentucky Home Cook Book—New and Revised Edition.

This book has become so popular that no introduction to the public is needed.

It is a book of receipts contributed, after tests proving their excellence, by Kentucky ladies, which is a guarantee of its merit.

The receipts have been compiled under the auspices of the Mite Society of the M. E. Church, South, Maysville.

It has become very popular and is having a large sale.

It is very appropriate and suitable thing for a Christmas present to a lady. Price, \$1.50.

It may be found at:

### River News.

Falling at headwaters with over five feet in channel.

The Congo passed up last night at 10 o'clock, having been detained at Cincinnati receiving a big lot of freight from the South.

The Andes is due down this evening and the Telegraph to-night. Due up: Sherley for Portsmouth, Boston for Pomeroy and Keystone State for Pittsburgh.

### And That's Not All.

Maysville has had a hard time with some of her schemes for improvement. In her onward march of progress, she occasionally butts her head against the "constitution." This renders the old lady more combat for a season, but she generally gets over it. Maysville is all right, but she needs good streets.—Dover News.

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

### Murderers Indicted.

MITCHELL, Ind., Dec. 11.—The special grand jury at Bedford, after three days' session, has returned indictments for murder in the first degree against old man Eubanks and his son, Bee, for the murder of Mary Eubanks, their daughter and sister, at Mitchell, on Nov. 11; also, against John W. Feltner for the murder of James Huron, on Nov. 25. The Eubanks' trial will be called up Wednesday, Dec. 24, and Feltner's Monday, Dec. 22.

### Wages of Cincinnati Teachers.

A principal of a district school gets \$1,900 salary; an intermediate principal, \$2,100; the high school principals, \$2,600, and the superintendent, \$4,500. There is but one man in the city getting as low as \$750. The superintendents of music and drawing get each \$2,100, and the principal of the normal \$2,000, or \$10 per day.

The average daily wages of the teachers is \$4.13, or \$826 per year. They teach six hours per day, and get 35 cents an hour up to \$2.50. In other words, some of the principals make more money in one hour than many workmen do in two days.—Cincinnati Times-Star.

### To Keep the Shoes Tied.

There is something depraved about shoestrings that causes them to untie at the most inopportune times. Patent holders for the shoestrings are not always effectual. The best method of keeping them tied is to tie them first in a long looped bow knot and then pick up the loops and tie firmly a second knot with the loops. Under ordinary conditions this knot will outlast the day's walking, and may be easily untied when necessary.—New York Tribune.

T. J. CURLEY has an elegant line of lamps which he is selling at a very low figure. His stock is the most complete to be found in the city, from the cheapest to the most costly. He makes a specialty of the Banner lamps. Stop in and examine his goods.

BOOKS are now open for subscriptions of stock in the new series of Mason County Building and Saving Association. It costs 80 cents per share to start in the new series. Apply to M. C. Russell, R. K. Heflich, Geo. T. Wood, Collins & Rudy Lumber Company, or any of the Directors.

THE two lazy dead beats who tried to work the scalped arm racket at Millersburg a few days ago were in Maysville also. Mayor Pearce gave them to understand that he would put them on the rock pile if they didn't get out of town, and they were not slow in making tracks for other fields.

AN Illinois Methodist preacher asked a class of boys for the definition of the word "Amen." There was no answer. He then asked what the brethren meant when they said "Amen" while some one else was praying. "I know," hastily exclaimed a little fellow. "It means hurry up and get through."

THE Bowling Green Times says: "From all over the county comes the distressing news that horses are dying, and the only cause assigned for their death is the new crop of corn which is just now being generally used by the farmers. It is said the corn is rotten and unfit to be fed, all of which is due to the excessive rains which fell on the grain before it matured."

JOHN D. WHITE has laid an attachment on the property of the New York and Kentucky Land Company in Bell County (Ky.) to secure the payment of a claim of \$59,000. Also the leading hotel at Pineville, same county, has closed its doors for the want of patronage. Less than two years ago Pineville was having a tremendous boom. Now the boom is "busted," and copious tears are being shed.—Exchange.

ACACIA LODGE NO. 24, F. and A. M., (colored) has elected the following officers for the ensuing year:

W. M.—H. W. Campbell.  
S. W.—Richard Burns.  
J. M.—Geo. Campbell.  
Treasurer—Thomas W. Graves.  
Secretary—Charles H. Walker.  
J. D.—A. B. Jones.

S. S.—Van Gallagher.  
J. S.—Wm. Hines.  
Tyrer—Jas. Williams.

THE horse and buggy belonging to Mathers & Henry, of Carlisle, mention of which was recently made, was found in a livery stable at Lexington, where they had been for some four weeks. F. P. Davis, who hired the outfit, has not been heard from, and it is feared that he has been killed, says the Mercury. He was regarded as a reliable man, and his family at Felicity, O., are greatly distressed about him. He taught school at Germantown a year or so ago.

SAYS the Portsmouth Blade: "A middle-aged man passed through this city Sunday afternoon pushing a peculiar barrow. He declined to give his name, but said he was a professional pedestrian, en route to Florida. He had been nine days reaching this point from Cleveland, had lost six hours by missing the road, and was a day and a half ahead of time. He crossed the Scioto bridge and struck out for Maysville, whence he will have good roads through that State. With this weather he can't go toward Florida too fast."

MINER BROS. never pretend (except in very exceptional cases) to offer so-called "bargains," but what they always aim to do is to sell the best goods at the least margin consistent with commercial integrity—to give the greatest possible value for the smallest possible return.

"Headlight Flashes."  
A Western road is adding 170 locomotives and 3,600 freight cars to its rolling stock.

THE Maysville Division of the Kentucky Central Railway is doing an unusually large freight traffic now.

An electric railway 186 miles long is about to be opened in South America, connecting Buenos Ayres with Montevideo.

An order has been issued from headquarters of the Cincinnati Southern that all watches used in services on the road shall be inspected each week. Heretofore a monthly inspection was demanded of the employees of the road.

### Defrauded the Road.

W. C. Lane, Roadmaster of the K. C. from Paris to Livingston, was arrested a few days ago, together with W. M. Blount, a prominent merchant of Richmond, on the charge of having defrauded the railroad. It seems that Lane had purchased a lot of ties and got Blount to sell them to the road in his name, the vouchers being approved by Lane. The latter made out vouchers each month in Blount's name for thirty or forty dollars more per month than the amount of ties furnished, thus defrauding the company of that amount. Blount was held over to the Circuit Court in \$400 and Lane in \$700 bond.—Winchester Democrat.

## CROP REPORTS.

December Returns to the Agricultural Department.

COTTON IS ABOUT THE SAME.

The Corn Crop Worth More Than Last Year—The Value of Wheat Shows an Increase of Twenty Per Cent.—A Short Oats Crop—Proceedings of the Senate and House—Other Washington Dispatches.

WASHINGTON, Dec. 11.—The December returns to the department of agriculture of the value of cotton on the plantation are nearly the same as last year, the average being quite as high as the average farm value of the previous crop, or 8.6 cents. As the average export price slightly exceeds ten cents, this makes the cost of shipment by wagon and railway, or steamer, drayage, commissions, compressing and other expenses nearly one and one-half cents per pound. The state averages are as follows: Virginia, 8.7 cents per pound; North Carolina, 8.7; South Carolina, 8.7; Georgia, 8.6; Florida, 8.6; Alabama, 8.6; Mississippi, 8.8; Louisiana, 8.8; Texas, 8.4; Arkansas, 8.5; Tennessee, 8.4.

The statistical returns of the department of agriculture for December give the average farm prices of agricultural products by countries, which are consolidated in this office to obtain accurate averages for the several states. State agents obtain similar estimates, revise and consolidate, and forward state averages. The department estimates, as published, are made from these duplicate and independent sources of information, which are in remarkable agreement and may be relied upon as the true measure of value of crops in the hands of the farmers.

The present corn crop is worth more than the last, and farmers will receive more for it. Unfortunately districts of failure do not realize their portion of the advance in average value. The average price, by present returns, is 50.1 cents per bushel, against 28.3 cents for the crop of 1889, an increase of 77 per cent. It is the highest December price of the decade, except that of 1881, the only year in which final average of condition was worse than that of the present season. The average price then rose to 63.6 cents, and that of the following year was 43.4 with a better crop than the present. The next highest average is 44.4 in 1887, following three years of large crops and cheap corn. The prices therefore depend upon the quantity grown in the year, plus the reverse from preceding years. The present average shows that small crops are a sure cure for low prices, and that the law of demand is still the main factor in making prices and profits. The prices in the seven corn surplus states are: Ohio, 51 cents; Indiana, 47; Illinois, 43; Iowa, 41; Missouri, 44; Kansas, 51; Nebraska, 48.

The average farm value of the wheat crop, as estimated, is 84 cents per bushel, against 69.8 for 1889, an increase of 20 per cent. on the price of last year. The value of wheat is affected by the harvests of other countries, as corn is not perceptibly, and therefore prices are not entirely governed by the size of the home grown crop. For example, the crop of 1885, though smaller than the present one, brought but 77 cents in December, while the crop of 1882, aggregating over 500,000,000 bushels, the second largest ever grown, sold at 88 cents at the same date.

The price of oats has responded sharply to the pressure of a small crop and increased demand because of a short corn crop. The average is 42.2 cents against 32 cents last year. It is the highest reported since 1881. An examination of records show that abundance or scarcity of corn materially affects the value of this crop, the two grains being largely interchangeable at 62.

Rye, like oats, at 62 cents, is higher than since 1881, and the same is true of barley at 64.8. Buckwheat, at 57.7, marks an advance over last year, but is lower than in 1888.

The deficiency in the potato crop has caused an advance in values in all sections of the country. The average is 77.7 cents, an increase of more than 90 per cent. over the prices of the past two years. The returns show slightly higher prices for tobacco than have prevailed since 1881. The average is reported at 7.7 cents per pound.

Hay, alone of all farm products, records a decline from last year. The present price is \$7.74 per ton, and the slight falling off is due to the increased product.

Senate and House Proceedings.

WASHINGTON, Dec. 11.—In the senate yesterday the house bill to authorize a rebate on tobacco was passed. Mr. George spoke in opposition to the Federal election bill. The house amendments to the bills for buildings at Madison, Ind.; Rock Island, Ill., and Sioux City, Iowa, were concurred in, and a general conference was ordered on the other building bills passed by the house Tuesday.

J. W. Hathaway was elected postmaster of the house. The bill to authorize the Corpus Christi and Padre Island harbor company to construct a harbor off Padre Island was passed; also the senate bill for the relief of the mission Indians in California.

A Postmaster Absconds.

WASHINGTON, Dec. 11.—Chief Post-office Inspector Rathbone this morning received a telegram from Post-office Inspector Sharpe, at Chattanooga, Tenn., saying that W. D. Olmstead, postmaster at Decatur, Ala., had absconded with \$1,000 of government money. The inspector who is investigating the case, believes the absconder is in New Orleans. The chief inspector has offered a reward of \$200 for his capture and delivery to the United States marshal and directed recovery of the money from the bondsmen of the absconding postmaster.

Republican Senators Caucus.

WASHINGTON, Dec. 11.—The caucus of Republican senators last night agreed to pass a resolution for the meeting of the senate at 10 a. m. and for night sessions hereafter. A committee was appointed to consider the necessity for

financial legislation. A proposition to change the rules was pending when the caucus adjourned.

Relief for the Money Market. WASHINGTON, Dec. 11.—Representative Peters, of Kansas, a Republican member of the appropriations committee, says that with a view to relieving the stringency of the money market, he proposes to introduce a bill providing for the issuance by the treasury of notes on all bonds deposited for that purpose, to an amount equal to the full face value of the bonds, and in addition a sum equal to about 3 per cent. interest up to date of maturity of the bonds, that is, to issue notes on bonds and interest.

Sixty-Three Million People. WASHINGTON, Dec. 11.—The total population of the country, including Indians, will reach 63,000,000 after all. All the census office has actually returned in round numbers is 51,000 Indians and whites in the Indian territory. This, with the population of Alaska, which Special Agent Petroff estimates at 38,000, will bring up the total population of the United States to 63,000,000, a numerical gain of 13,000,000 for the decade since 1880.

A KENTUCKY GIRL DUPED.

She Marries a Stranger and Entrusts Him with \$70,000 to Her Sorrow.

NEW YORK, Dec. 11.—The mysterious disappearance of Jomanda Usteri Lavero with nearly \$70,000 in cash belonging to his wife, in his possession, is cleared away by Lawyer Balesier. The lady told the lawyer that she and her husband came to New York from Louisville, Ky., last Saturday. She said she was formerly Miss Cecile Watkins, of Maplewood Manor, Ky., and that her father was the well known breeder of horses of that name. He died about a year ago leaving her \$70,000. After his death she went to Louisville and stopped at the home of a friend, Miss Lulu De Montano, of No. 417 Walnut street. There she met Lavero, who said his father was a wealthy nobleman of Spain. The couple fell in love and were married on Oct. 11 last, after a six weeks' engagement, by the Rev. Dr. Cockerill.

They decided to come to New York and Mrs. Lavero entrusted to her husband her legacy of \$70,000. They were accompanied to this city by Miss De Montano. Soon after their arrival Lavero received a cable from his father calling him to Spain. He told his wife that he had better go alone, as his father did not know he was married. She consented, and he left, taking with him some \$69,000. She added that shortly after Mr. Lavero departed Miss De Montano disappeared, leaving a note that she had gone away with the man she loved. Mrs. Lavero has endeavored to learn when her husband sailed and by what line, but without success, she says, and fearing that something might be wrong, she appealed to Lawyer Balesier. The lawyer advised her to notify the police.

RUN DOWN BY A TRAIN.

One Man and Two Women Horribly Mangled at Minneapolis, Minn.

MINNEAPOLIS, Dec. 11.—E. T. Todd and wife, of Minneapolis, and their daughter, wife of Master Mechanic Slayton, of the Kansas City road, were run down and instantly killed by a St. Paul and Omaha passenger train at the state university station yesterday. They were in the act of boarding a Great Northern train, when they were run down by the Omaha train coming in on an adjoining track at a terrible speed.

Mr. and Mrs. Todd were ground to pieces under the engine, their bodies being mutilated almost beyond recognition. Mrs. Slayton was caught by the cowcatcher and hurled a distance of nearly twenty feet into the air, her body falling against a passenger coach of the Great Northern train. The remains of the victims were scattered along the track for a distance of nearly one hundred feet, and it was some time after they were collected that their identification could be established.

The bodies were carried into the station and the coroner notified. Slayton left a little girl at home, who told those who called that her mama had gone to St. Paul.

The engineer said he had a heavy train, and the breaks did not answer promptly. Mr. Todd was a prominent contractor of Sioux City.

Mr. Slayton is at present in New York city.

A Jurymen Deposited.

GREENSBURG, Ind., Dec. 11.—In the circuit court, Tuesday, a peculiar incident took place. In 1884 Mrs. Mattie Strausner fell on a sidewalk in the city of Columbus and broke her leg. She sued the city, and on a change of venue from Bartholomew county, it was tried here in May, 1886, and a verdict for \$3,000 returned. The case was appealed to the supreme court, and reversed upon a technical error. The second trial began here Wednesday, and a large number of witnesses were examined, until it was discovered that there was one man on the jury that sat on the jury four years ago, and the case had to be continued. The man, of course, had forgotten the former trial.

Baloting for a Senator.

COLUMBIA, S. C., Dec. 11.—The general assembly in joint session yesterday took a second ballot for United States senator. On completion of the roll call the vote stood as follows: Irby 63, Hampton 42, Donaldson 45. Irby gained eight votes compared with Tuesday's ballot: three from Hampton, three from Donaldson and two votes not cast Tuesday and needs seventeen more to secure his election. His friends feel confident.

Farmer's Life Threatened.

CANTON, O., Dec. 11.—Americus Plumb, a farmer near here, has received an unsigned letter, marked with a coffin and skull, notifying him that unless he left \$6,000 at the place designated in the letter he would be killed on Dec. 15. Plumb is wealthy, and is in fear of his life. The matter will be placed in the hands of detectives.

A Victim of Heart Disease.

SHELBYVILLE, Ind., Dec. 11.—Dr. Itthamar H. Drake, one of the most prominent physicians in the country, died yesterday morning of heart disease, aged 62 years. The deceased was a member of the state legislature.

## SCHOOL NOTES.

### MILLWOOD NO. 23.

Here is a good school house, having a well-cared for appearance, but the grounds are treeless. The trustee are Charles Cook, Selden Bramel and J. M. Walker, a very faithful board. The teacher is Miss Miley S. Howe, who is among our most experienced teachers, a very accomplished and thorough teacher, understands well how to conduct her school. Her pupils are well behaved and we were pleasantly impressed by their courtesy in arising from their seats to receive the Superintendent. We heard several classes, all recited well, notably classes in history, geography, reading, &c. Miss Howe speaks very encouragingly of her school and I think she is justified in doing so.

We were very hospitably entertained by Mr. and Mrs. Richard Wells, whose beautiful home overlooks the Millwood school house. G. W. BLATTERMAN, Superintendent.

### Entitled to the Best.

All are entitled to the best that their money will buy, so every family should have, at once, a bottle of the best family remedy, Syrup of Figs, to cleanse the system when costive or bilious. For sale in 50c. and \$1 bottles by leading druggists.
